Food proteins must be broken down into amino acids that your body uses for tissue growth, maintenance and repair. The enzyme called trypsin, present in pancreatic juice, is essential for efficient protein digestion. Disorders of trypsin production can not only hinder digestive processes, they can damage the pancreas.

The value of Yogananda's Autobiography is greatly enhanced by the fact that it is one of the few books in English about the wise men of India which has been written, not by a journalist or foreigner, but by one of their own race and training—in short, a book about yogis by a yogi. As an eyewitness recountal of the extraordinary lives and powers of modern Hindu saints, the book has ...
