TheGreenBow VPN Client is compatible with all IPSec routers compliant to the existing standards (IKE & IPsec). Check our Certified VPN Products list, increasing daily, to find your VPN gateway. If the equipment you are looking for is not contained in this list, please contact our tech support and we will work with you to certify it. We will need configuration file, log file from "Console ...

Universal VPN Client software for highly secure remote ...

In Figure 1, a network layer firewall called a "screened host firewall" is represented. In a screened host firewall, access to and from a single host is controlled by means of a router operating at a network layer. The single host is a bastion host; a highly-defended and secured strong-point that (hopefully) can resist attack.
