In physics (specifically in electromagnetism) the Lorentz force (or electromagnetic force) is the combination of electric and magnetic force on a point charge due to electromagnetic fields. A particle of charge q moving with a velocity v in an electric field E and a magnetic field B experiences a force of $\mathbf{F} = q(\mathbf{E} + \mathbf{v} \times \mathbf{B})$ (in SI units). Variations on this basic formula describe the magnetic force on a ...
