Journal Of Electromagnetic Analysis And

The Journal of Electromagnetic Engineering and Science (JEES) is an official English-language journal of the Korean Institute of Electromagnetic and Science (KIEES). This journal was launched in 2001 and has been published quarterly since 2003. It is currently registered with the National Research Foundation of Korea and also indexed in CrossRef and EBSCO.

IEEE Transactions on Electromagnetic Compatibility publishes original and significant contributions related to all disciplines of electromagnetic compatibility (EMC) and relevant methods to predict, assess and prevent electromagnetic interference (EMI) and increase device/product immunity. The scope of the publication includes, but is not limited to Electromagnetic Environments; Interference ...

IEEE Transactions on Electromagnetic Compatibility

International Journal of Electromagnetics and Applications aims at electromagnetic analysis, testing and application. The journal also intends to stimulate the development of current technology in industry.

x I read with great interest the article by Aguayo et al. 1 in a recent issue of the journal. The authors performed a retrospective study on 1,001,945 patients who underwent coronary artery bypass grafting and concluded that new-onset depression after coronary artery bypass grafting discharge was not associated with increased odds of mortality, morbidity, costs, or increased length of stay on ...

Psychosomatic Medicine, founded in 1939, is the official organ of the American Psychosomatic Society. It publishes experimental and clinical studies dealing with various aspects of the relationships among social, psychological, and behavioral factors and bodily processes in humans and animals. It is an international, interdisciplinary journal devoted to experimental and clinical investigation ...

About this Journal. Computational and Mathematical Methods in Medicine is a peer-reviewed, Open Access journal that publishes research and review articles focused on the application of mathematics to problems arising from the biomedical sciences. Areas of interest include gene therapy, cell kinetics, pharmacokinetics, chemotherapy, oncology, developmental biology, wound healing, physiology ...

Electrodynamics is the physics of electromagnetic radiation, and electromagnetism is the physical

phenomenon associated with the theory of electrodynamics. Electric and magnetic fields obey the properties of superposition. Thus, a field due to any particular particle or time-varying electric or magnetic field contributes to the fields present in the same space due to other causes.

The spread of radiofrequency electromagnetic fields (RF-EMF) is rising and health effects are still under investigation. RF-EMF promote oxidative stress, a condition involved in cancer onset, in several acute and chronic diseases and in vascular homeostasis.

Astronomical spectroscopy is the study of astronomy using the techniques of spectroscopy to measure the spectrum of electromagnetic radiation, including visible light and radio, which radiates from stars and other celestial objects. A stellar spectrum can reveal many properties of stars, such as their chemical composition, temperature, density, mass, distance, luminosity, and relative motion ...

US Electromagnetic Weapons and Human Rights By Peter Phillips, Lew Brown and Bridget Thornton. This research explores the current capabilities of the US military to use electromagnetic (EMF) devices to harass, intimidate, and kill individuals and the continuing possibilities of violations of human rights by the testing and deployment of these weapons.
