Focusing on the complex interplay among mechanical and electrical systems needed to support critical infrastructure, Art. 708 is one of four new Articles added to the 2008 NEC. Reaching deep into the conception, commissioning, and management of such systems, it references eight other standards, annexes, and additional explanatory material in the NFPA portfolio of documents that are bound together

The new Hardy HI 1734-WS Point I/O Series Weight Processing Module is a new plug-in module for Rockwell's Point I/O chassis, the fastest growing segment of Rockwell controllers. The HI 1734-WS is a true weight processing module, compared to competitive offerings that merely pass weight data through to the PLC for interpretation.
