Members of the U.S. military service train for and perform a variety of tasks in order to maintain the U.S. national defense. Servicemembers work in occupations specific to the military, such as fighter pilots or infantrymen. Many other members work in occupations that are equivalent to civilian occupations, such as nurses, doctors, and lawyers.

Aircraft structures are being redesigned to use fiber-reinforced composites mainly due to their high specific stiffness and strength. One of the main drawbacks from changing from electrically conductive metals to insulating or semi-conducting composites is the higher vulnerability of the aircraft to lightning strike damage.
