Access for people with a disability to the web can in almost all cases be readily achieved if best-

practice solutions are implemented. A complaint of disability discrimination is much less likely to succeed if reasonable steps have been taken to address accessibility during the design stage.

World Wide Web Access: Disability Discrimination Act ...

This section introduces a range of climate-smart agriculture (CSA) practices and technologies within seven entry points for CSA; soil management, crop management, water management, livestock management, forestry, fisheries and aquaculture, and energy management. Practices are understood broadly as ways of doing things, for example, precision farming, tillage, and fertilization; these are all ...
